

RAMESH M

Senior Laravel & PHP Backend Developer

Bangalore, India | +91-95852 74987 | rameshmani1709@gmail.com

PROFESSIONAL SUMMARY

Results-driven Backend Developer with 6+ years of hands-on experience architecting and delivering scalable web applications using Laravel and PHP. Proven expertise in building CRM, ERP, and event-management platforms with seamless payment-gateway, WhatsApp, and SMS integrations. Recently expanded into AI-powered development workflows, leveraging Claude Code and the Anthropic API to automate code generation, accelerate refactoring, and integrate intelligent features into production systems. Passionate about clean architecture, performance optimization, and continuously adopting modern tools to ship better software, faster.

TECHNICAL SKILLS

Languages and Frameworks: PHP 7, PHP 8, Laravel, MVC, MySQL, RESTful APIs

AI and Automation: Claude Code, Anthropic API, AI-assisted code generation, Prompt Engineering, LLM Integration

Frontend: HTML5, CSS3, JavaScript, jQuery, Bootstrap, AJAX, Blade Templating

Integrations: Razorpay, PayU, Stripe, WhatsApp Business API, SMS Gateways, REST APIs

Database and Performance: MySQL Query Optimization, Eloquent ORM, Database Design, Indexing, Caching

Tools and Servers: Git, GitHub, Composer, Postman, AWS EC2, AWS S3, Apache, Nginx, WAMP, XAMPP, cPanel

Practices: Clean Code, MVC Architecture, Code Reviews, Agile, Scrum, Version Control

Soft Skills: Team Collaboration, Problem-Solving, Client Communication, Mentoring

PROFESSIONAL EXPERIENCE

Senior Laravel Developer

Trasol Technologies Pvt Ltd, Bangalore, India | Mar 2022 - Present

- Architected and led development of a full-featured CRM platform handling lead management, automated follow-ups, and real-time WhatsApp notifications, improving sales-team productivity by an estimated 35%.
- Built MoneyExpo and Forex Expo, large-scale event-management platforms supporting online registration, multi-tier ticketing, exhibitor booth management, and secure online payments for thousands of attendees.
- Integrated multiple payment gateways (Razorpay, PayU) with robust failure-handling, refund flows, and transaction reconciliation, reducing payment-related support tickets significantly.
- Introduced AI-assisted development using Claude Code to accelerate feature delivery, automate boilerplate generation, and perform large-scale safe refactoring across legacy Laravel modules.
- Designed and consumed REST APIs powering both web dashboards and mobile applications; authored clear API documentation and Postman collections for partner teams.
- Optimized MySQL queries and Eloquent relationships, cutting average page-load times on key CRM dashboards by approximately 40%.
- Mentored junior developers through code reviews, pair programming, and internal knowledge-sharing sessions on Laravel best practices.

Laravel Developer

Alt minds Technologies, India | Dec 2019 - Mar 2022

- Developed a comprehensive School Management System covering admissions, attendance, examinations, fee collection, and parent-teacher communication, adopted by multiple institutions.
- Built an end-to-end ERP solution with modules for inventory, HR, payroll, and accounting, integrated with SMS gateways for automated alerts and reminders.
- Implemented online fee-payment workflows with detailed transaction history, automated receipts, and reconciliation reports for school administrators.
- Migrated legacy PHP scripts to Laravel MVC architecture, improving maintainability, security, and onboarding time for new developers.
- Collaborated closely with clients to gather requirements, translate them into technical specifications, and deliver iterative releases.

KEY PROJECTS

- **CRM Platform (Trasol):** Full lead lifecycle management, automated WhatsApp and email follow-ups, role-based access control, real-time analytics dashboards, and payment-linked invoicing.
- **MoneyExpo and Forex Expo:** Multi-event registration portal with dynamic pricing, coupon codes, exhibitor management, badge generation, AI-powered chat integration for attendee support, and integrated online payments.
- **ERP System (Altminds):** Modular ERP covering inventory, HR, payroll, and finance with SMS-driven notifications and customizable reporting.
- **School Management System:** End-to-end school operations including admissions, attendance, exams, online fee payments, and parent-portal communication.

EDUCATION

Bachelor of Computer Applications (BCA)

National College, Trichy, Tamil Nadu | 2015 - 2018

LANGUAGES

English (Professional), Tamil (Native)
